

LANDSCAPE DESIGN

DESIGNED BY : ISRA YAQUB HAMED — FOURTH STAGE

UNIVERSITY OF SALAHHADIN
ENGINEERING COLLEGE
ARCHITECTURE DEPARTMENT

SUP. BY:
M. SUZAN
M. KARZAN

CONCEPT

I took my concept from different level of ages like children , old people and younge because we should design landscaping for all ages , i make the ramp to the roof , in the zero point of the ramp shows the age of children and when you go to the top shows the young age again to go down shows the old age and i use the curve line in design cuz shows the soft and comfortable .

TOP (SHOWS
YOUNGE AGE)

ZERO POINT (SHOWS
CHILDREN AGE)

ZERO POINT (SHOWS
OLD AGE)

type of tree

bur-oak

japanese camellia-red

eropeanal inden

red maple

shumard oak

wateroak

flower type

japanese spiraea purple

japanese spiraea red

magic - lily - orange

material

fense : metal
sitting area : wood + concrete
playtool : plastic
gate : concrete
fountline : concrete

color

seating area : brown + white

shelter : gray concrete

play tool : red + yellow

i used two color of softscape
