

## Instructor Empowerment Program

Huawei ICT Academy and Engineering Consulting Bureau (ECB) at Salahaddin University- Erbil are delighted to announce “Instructor Empowerment Program”. The main purpose of this program is to provide a leading talent development system and certification standards, developing new ICT professionals in the digital era, and building a healthy ICT talent ecosystem. Instructors who come from the faculty of Huawei partner universities are eligible to participate in this program. After finishing the program, instructors are free to apply for HCIA exam vouchers based on the policies required by ECB. Huawei Certified Academy Instructor shows that you are certified in a certain ICT field of Huawei Certification and have mastered the basic knowledge and skills required in that field. It recognizes that you are qualified to deliver Huawei standard training and certified courses. Instructors can perform teaching, learning and management, such as management of information, registration, and online agreement classes, as well as self-study, job information, and training materials downloading. Postgraduate students are eligible for this program.

## What is Huawei ICT Academy?

Huawei ICT Academy is a non-profit partnership program set up between Huawei and Universities while a selection of higher education institutions have their own conditions. It authorizes global universities and colleges to deliver Huawei Certified ICT courses to students. Huawei ICT Academy at Salahaddin University-Erbil has been designed to deliver industry standard training and certification courses that are highly regarded by employers. As such, access to these courses will equip students with the latest ICT knowledge and practical skills, making them more employable and helping to kick start their careers.
